

HAWLEY HAS THE ALTON Quietly Bought Up the Stock.

Kuhn, Leeb & Co. Thought
They Held Control, Until
It Was Too Late.

Road Is to Be Operated Separately by
Hawley, Although He Will Try
to Work in With Rock Island.

Full confirmation was obtainable today of the report that the Harriman-Kuhn, Leeb & Co. interests do not hold control of the Chicago and Alton railroad, but that the control had passed to Edwin Hawley and interests friendly to the Rock Island company. It was also learned definitely that, while J. W. Gates holds a considerable amount of Alton stock his interest does not represent a balance of power. The Hawley-Rock Island interests have enough stock to place them in a position where they need not consider Gates, even though he may have "batted" in the transaction.

The purchase of the Alton shares by the new controlling interests began a long time ago and naturally was done quietly so that the Harriman interests, which have been in control by virtue of proxies since the reorganization of the company, did not realize what was going on. When they found that something was taking place they sent out their purchase order of \$50 for the common and \$90 for the preferred stock, the shares to be deposited with Kuhn, Leeb & Co., and later to be turned over to an unnamed buyer, which it is pretty clear, was to be the Union Pacific company. The time for deposits of stock under that offer expires on September 28, but naturally it is now evident the deal is not going through. In the fact that the control of the Alton was bought in the open market by other interests at a time when Harriman thought it rested safely with him the transaction resembles the famous Louisville & Nashville purchase by John W. Gates, when he bought the control of that property away from August Belmont. That, however, was a speculative market coup, but the Alton purchase, it is now definitely stated today, does not represent a speculative operation. The property will be held and operated by its purchasers.

The statement was made in an authoritative quarter today that the Alton is in hands not antagonistic to the Rock Island company, but neither are they antagonistic to any other road. Manifestly, it is to the interest of any railroad to work in harmony with other railroads. It is understood that there is little likelihood of the Alton being turned over to the Rock Island—St. Louis Globe-Democrat.

HEAVY DAMAGE.

Toponah Road Had Bad Luck, but Is
Now Rebuilt.

The repairs to the Toponah railroad are now completed and the track is in good running order. The damage was far more extensive than was generally thought, and it is a matter of surprise and congratulation that the road has been put in order so quickly. Since the line was opened on Tuesday 250 passengers have been taken into Toponah and eighty-four have gone out. The incoming freight is very heavy and there have been hauled eighty-one cars carrying live, perishable goods, horse feed, lumber, etc. The outgoing freight amounted to forty-four cars of ore, the Toponah Mining company shipping 150 tons in bulk and 110 tons sacked; the Montana-Toponah sent out fifty-five tons sacked ore and about 200 tons of goldfield ore, from the combination, January and Fuller-McDonald, Bowers, Kernick and Zinn leases on the Jumbo. From now on the company will be in position to haul out 200 tons of ore per day.

Burlington's New Connections.

Owing to a popular demand from local patrons and the heavy eastbound travel the Burlington has arranged to hold its hour at Denver until 11:15 p. m. nightly. No. 2 and No. 4 of the Rio Grande via Salt Lake will both catch this fast train, so that if one train is missed the other can be taken and no time be lost at Denver.

Thought He Was the Whistle.

Billy Ridd tells the story. He says that at a station on the Big Road had a very fresh agent and a dear old lady went up to the ticket window one day and asked how long the train stopped there. "From two to two-to-two," replied the fresh agent. "My," said the old lady to her charming companion, "this young chap thinks he is the whistle."

Railroad Notes.

J. L. Moore of the Salt Lake Route has gone down the line on business. Contractors and stowaway men are flocking to Western Pacific headquarters in San Francisco.

It is stated that a practicable pass south of Rockwell to the Moffat road and also on the proposed line would be built on an easy grade as a via Beckwith.

Returning Knights Templars thronged the city yesterday. The railroads were kept busy handling the trains.

Hawley seems to the lay reader to be a cunning man.

Last week you could not find a railroad man who would admit anything about the Western Pacific. Since President Jeffery has spoken, however, they are all saying "I told you so."

The whole town seems to be interested in the Western Pacific.

As no right-of-way maps for the Moffat route into Salt Lake have been filed, the announcement that bids will be asked for seems to be premature.

The Utah Construction company is going to bid on the Moffat road and also on the Western Pacific work. Manager Wat- tles is a hustler.

The Oregon Short Line is going to have an immense crowd to take to Brigham this morning.

The dining-car departments of both local roads are shown—has not results these days.

HAD TOO MANY EMPLOYEES.

Philippine World's Fair Commission
Drops Fifty Persons From Staff.

ST. LOUIS, Sept. 14.—Announcement was made today at the office of the Philippine World's Fair Board that more than fifty employees of the Government exhibit, including several high officials, had been dismissed for reasons of economy. The highest in rank of those whose services will be dispensed with is E. S. Felder, executive officer at the Philippine reservation, who was engaged at a salary of \$3000 a year. Albert C. Newell, chief of exploitation, salary \$4000 a year, and J. F. Compton, chief auditor and accountant, have been notified that their services will not be required.

The reduction in the executive force of the Philippine exhibit was made by Auditor A. T. Lawshee of the Philippine Board, who recently arrived at St. Louis. It is expected that a saving of \$7500 a month will result from the reductions.

Herbert S. Stone, chief of the department of press and publicity, remain and will assume the duties of executive officer in addition to those of his present office. In addition to the officials, many employees of the press and publicity department and between fifty and sixty members of the Philippine reservation special guards have also received notices of dismissal.

Both Mr. Felder and Mr. Newell assert that they have contracts with the Philippine Board for one year, each, and that they cannot be summarily dismissed without cause. They declare that they intend to contest Auditor Lawshee's action.

OUR MARTYR PRESIDENT.

Third Anniversary of the Death of
McKinley.

CANTON, O., Sept. 14.—Today is the third anniversary of the death of President McKinley. Among the floral tributes laid on the casket was a wreath of flowers from Secretary of Agriculture Wilson.

Mr. McKinley visited the tomb and placed fresh flowers on the casket. Her condition shows little change, except that physically she is stronger. The improved physical condition which began with recovery from the acute attack sustained in California and interrupted by the Buffalo tragedy has continued since recovery from the first shock and she is now better than she had been for some years before the President's death.

BRIGHAM EXCURSION.

September 15.

Via O. S. L. Round trip only \$1.25. Three hundred cases of peaches, in addition to large supply of cantaloupes and watermelons, will be distributed free to visitors. Special train leaves Salt Lake 8 a. m. Special returning. Continuous dancing Saltair Saturday night.

HAD TOO MANY WIVES.

Norman B. Roberts Begins Proceedings to Secure Divorce From Two.

SPOKANE, Wash., Sept. 14.—Norman B. Roberts has begun proceedings to secure divorces from two wives. His first wife, Myrtle May Roberts, whom he married at Saginaw, Mich., in 1895, deserted him two years later. Roberts states that afterwards she told him she had secured a divorce and introduced him to her second husband. In June, 1902, Roberts married again at Missoula, Mont., but wife No. 2, Mrs. Edda Cecilia Roberts, deserted him seven weeks later and is now in Juneau, Alaska. He has learned that Mrs. Roberts No. 1 never secured a divorce from him, and accordingly asks the court to release him from both wives.

DEMOCRATS GAIN IN MAINE.

Complete Returns Monday's Election
Gives Republicans Plurality 27,130.

PORTLAND, Me., Sept. 13.—Complete returns of the vote for Governor in Monday's election show a Republican plurality of 27,130, against 33,284 in 1900.

Cobb (Republican) for Governor received 78,497; Davis (Democrat), 51,300. The vote in 1900 was: Hill (Republican), 72,470; Lord (Democrat), 40,025.

The figures for 1904 show a Republican gain of 499 over four years ago, and a Democratic gain of 11,244, or a net Democratic gain of 6246.

EXCURSIONS EAST

M'WADE IS BOUNCED.

Removed by President From Position
of Consul-General at Canton.

OYSTER BAY, L. I., Sept. 14.—Robert M. McWade, United States Consul-General at Canton, China, today was removed from office by President Roosevelt. Charges made against him recently were investigated by Assistant Secretary Pierce, who went to the Orient to make an investigation of several of the United States Consulates in China and Japan. Secretary Pierce in his report to the President strongly sustains the charges made against Consul-General McWade. The order for McWade's dismissal went forward this afternoon.

BOY SLAIN BY MAN.

Brutal Murder of a Child by Aged
Man in Chicago.

CHICAGO, Sept. 14.—To put to flight a crowd of boys and girls who had been annoying him, Albert Marek, an aged Bohemian, leveled a small rifle at them and pulled the trigger. At the report of the rifle David Durham, 10 years old, fell with a bullet wound in his right temple, and he died early today.

The shooting occurred in front of the home of Marek, who is 64 years old. Afterward he had to barricade himself in his home until the arrival of the police to escape the wrath of neighbors.

To All Catarrh Sufferers.

Hyomel Guaranteed to Cure by F. C.
Schramm or Money Refunded.

The popularity and increase in the sales of Hyomel are unique in the annals of medicine. Such astonishing cures have been made by this remarkable remedy that the proprietors have authorized F. C. Schramm to sell every package of Hyomel under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by F. C. Schramm.

Hyomel is no ordinary remedy. It is the only method of treatment that sends by direct inhalation to the most remote part of the air passages a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes permanent and complete cures of catarrh.

Breathe through the inhaler for a few minutes four times a day and your catarrh is cured. That's all.

If not cured, F. C. Schramm will refund your money.

CURE FOR HAY FEVER.

Hyomel is a positive cure for the sneezing, watering of the eyes, excessive running at the nose, and intense burning of hay fever. It soothes and heals the irritated mucous membrane and gives quick and lasting relief.

RAPID TRANSIT FOR FREIGHT

Pneumatic Tube Service Proposed Between Chicago and Milwaukee.

CHICAGO, Sept. 14.—A pneumatic tube eighteen inches in diameter between Chicago and Milwaukee that will transport packages and mail between the two cities in forty minutes—at the rate of more than two miles a minute—and give a lightning express service to all the towns along the route is proposed by a concern which has installed pneumatic tube systems in some of the largest Chicago business houses.

The cost of the line is placed at \$5,000. As the distance is about 84½ miles, this is at the rate of \$59.60 a mile. Expenses of maintenance and operation will be so small it is asserted, that the company can afford to carry freight at less than the price now charged by any common carrier.

By the vacuum system used by the company the air in the tubes is partly exhausted in front of the carriers instead of being forced at high pressure back of the carriers, as in other pneumatic systems. An arrangement of pumps, valves and levers makes it possible to divide the line into short sections, each operated independently so that distance, according to the company, practically cuts no figure as regards practicability of operation.

OGDEN EXCURSION.

Sunday

Via O. S. L. under auspices Opal club. Round trip \$1.00. Leave Salt Lake 9:30 a. m. Leave Ogden returning, 9:00 p. m. Go and enjoy the trip up Ogden canyon. Trout and chicken dinner at the Hermitage.

ROMAINE IN THE PEN.

Colorado Officers Will Soon Attempt
to Get Possession of Him.

TOPEKA, Kan., Sept. 14.—The Topeka officers expect that an effort will be made this week by the Colorado authorities to get possession of Robert Romaine, who confessed to complicity in the explosions at Independence and the Victor mine in Colorado.

Romaine is at present under sentence to the State penitentiary for robbery. When the Colorado officers come after him an effort will be made to induce Gov. Bailey to pardon Romaine, so that there may be no obstacle in the way of his return to Colorado.

Best way to cure kidney trouble is to strengthen the kidneys, help them to perform their functions properly. That's what Doan's Kidney Pills do.
